#### DETAILED ACTION

##### *Double Patenting*

1. Claims 6-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 6,370,377. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims in the continuation are broader than the ones in patent, broad claims in continuation application are rejected as obvious double patenting over previously patent narrow claims. For example, claim 6 is the same as claim 1 of the patent except that "a mobile communication system, comprising a mobile station; at least one base station covering an area into which said mobile station enters" limitation was not recited. Therefore claim 6 is broader than claim 1 of the patent.
